

# Educational Leadership Workshop

## Leading Learning in a Web 2.0 World

Never Stand Still

Faculty of Arts & Social Sciences

School of Education

Office of Educational Leadership

This workshop will focus on the critical role of leading contemporary schooling. Contemporary theory and practice demonstrates that we need a much sharper focus on the nature of leading vibrant, dynamic schools committed to contemporary learning and teaching. As schooling responds to this contemporary age and an increasingly powerful set of new teaching and learning tools in a web 2.0 world and beyond, the role of leading these schools is continually challenged.
